**COVID-19 VACCINE INFORMATION FOR VESSELS CALLING PUGET SOUND**  
**(SEATTLE, EVERETT, TACOMA, ANACORTES)**

**AS OF MAY 27, 2021**

In the United States, availability of vaccine is heavily dependent on the exact location and the date. While vaccines are available to individuals who are not U.S. citizens, vaccine availability at each authorized vaccination site varies. Single dose vaccine, Johnson & Johnson, may be available, it is not always guaranteed.

Please note that each request must be reviewed individually based on the vessel's schedule. Regarding vaccines onboard, this is not currently possible while following federal regulation. We have however arranged for crew to come ashore in small groups of 5 (keeping safe manning requirements, operational needs, and immigration formalities in good order).

Although the vaccine itself is at no cost, the services provided to facilitate do come at a cost. The shoreside medical concierge and logistics services (including identification of available vaccine, coordination of appointments and transportation) has previously quoted at \$219 per crew however again, this is on a case by case basis depending on the circumstances at the time. Note that this does not include coordination fees by the agent which are factored into the estimates provided.

Vaccination cards are provided to the crew at the time of their appointment. Please note that this vaccination cards / documentation can NOT be reproduced. They must be kept safely, as there is no option to replace them for crew.

Please let us know if you would like us to open a file and begin securing arrangements for the subject vessel. If so, we will require the following:

Vessel port:

Vessel terminal / berth:

Vessel ETA:

Vessel ETB:

Vessel ETD:

Crew list:

- a. Must contain full name and dates of birth
- b. Must contain immigration status (confirmation of valid shore pass)
- c. Must be broken down into identified groups of 5 who can come ashore together (keeping safe manning requirements and operational needs in good order)

Please contact Joseph Tabisola in our Seattle office for additional information:
